

Task Document – UI/UX Design Internship

Company: Hexpertify

Internship Role: UI/UX Design Intern

Task Title: Hexpertify Therapist Dashboard - Product Requirements Document

Deadline: 18 July 2026

Objective

Design a modern, professional, and intuitive therapist dashboard that serves as a complete clinical workspace. The dashboard should help therapists manage consultations, clients, schedules, documentation, outcomes, revenue, and content contributions while minimizing administrative effort.

The design should prioritize:

- Simplicity
- Professional healthcare aesthetics
- Fast daily workflow
- Outcome-based therapy tracking
- Mobile responsiveness
- Accessibility
- Minimal clicks for common actions

The overall experience should feel closer to a clinical workspace than a booking platform.

Navigation

Left Sidebar

- Dashboard
- Clients
- Calendar
- Outcomes
- Revenue
- Reviews
 - Submit Blog
 - Full Blog
- Blog Outline
- My Profile
- Settings

1. Dashboard (Home)

Purpose

Provide therapists with an overview of their day immediately after login.

Upcoming Sessions

Display upcoming consultations in chronological order.

Each session card should display:

- Client Name
- Session Time
- Session Duration
- Session Type
- Countdown until session
- Join/View Session button

Pending Session Reports (High Priority)

Display completed consultations where the therapist has not yet submitted the session report.

Each card should include:

- Client Name
- Session Date
- Session Time
- Complete Report button

Business Rule

A consultation should only become eligible for payment after the therapist submits the required session report.

Quick Statistics

Display:

- Sessions Today
- Active Clients
- Therapy Hours This Week
- Pending Reports
- Homework Awaiting Review

Weekly Schedule Graph

Visualize:

- Booked Sessions

- Completed Sessions
- Available Slots
- Busy Hours

Recent Client Activity

Display:

- Homework Completed
- Assessment Completed
- Mood Check-in Submitted
- Journal Shared
- Message Received

2. Clients

Client List

Each row should include:

- Client Name
- Age
- Gender
- Current Status
- Primary Therapy Goal
- Last Session
- Next Session
- Progress Indicator

Filters:

- Active
- Completed
- Inactive
- High Priority
- New Clients
- Search

Client Workspace

Client Overview

Display:

- Personal Information
- AI Intake Summary
- Initial Intake Responses
- Presenting Problems
- Identified Concerns
- Therapy Goals
- Preferred Language
- Communication Preference
- Therapy Timeline

Assessments

Display:

- PHQ-9
- GAD-7
- PANAS
- Other Assigned Assessments

Include:

- Current Scores
- Previous Scores
- Trend Graphs

Mood Tracking

Display:

- Daily Mood
- Weekly Trend
- Mood Timeline

Activities & Homework

Display:

- Assigned Activities
- Completion Status
- Completion Percentage
- Missed Activities
- Client Reflections
- Current Streak

Session History

Display:

- Date
- Duration
- Session Summary
- Homework Assigned
- Therapist Notes

Documents

Display:

- Worksheets
- Shared Files
- Reports
- Consent Forms

3. Calendar

Purpose:

Manage therapist availability.

Features:

- Daily View
- Weekly View
- Monthly View
- Set Availability
- Block Dates
- Recurring Availability
- Holidays
- Leave Management

4. Outcomes

Individual Client Outcomes

Client Improvement Score

Based on:

- Assessment Progress
- Goal Achievement
- Homework Completion

- Session Attendance
- Mood Improvements

Goal Achievement

Display:

- Total Goals
- Completed Goals
- Goals In Progress
- Goal Completion Rate

Include a progress graph.

Assessment Progress

Trend graphs for:

- PHQ-9
- GAD-7
- PANAS
- Other Assessments

Attendance Consistency

Display:

- Sessions Attended
- Missed Sessions
- Rescheduled Sessions
- Attendance Percentage

Homework Adherence

Display:

- Assigned Activities
- Completed Activities
- Completion Percentage
- Missed Activities
- Current Streak

Overall Engagement Score

Calculated using:

- Session Attendance
- Homework Completion
- Assessment Completion
- Mood Tracking Consistency
- Journal Participation

Display:

- Engagement Score
- Monthly Trend
- Engagement Level

Therapist Caseload Outcomes

Display:

- Average Client Improvement Score
- Average Goal Achievement Rate
- Average Assessment Improvement
- Overall Attendance Rate
- Average Homework Adherence
- Average Client Engagement Score

Filters:

- Week
- Month
- Year
- Custom Date Range

5. Revenue

Summary Cards

Display:

- Total Revenue
- Pending Payments
- Completed Consultations
- Therapy Hours

Filters:

- Week
- Month

- Year
- Custom

Revenue Analytics

Graphs:

- Revenue Growth
- Consultation Count
- Therapy Hours Trend
- Average Revenue per Consultation

Transaction History

Display:

- Date
- Client
- Amount
- Status
- Invoice

6. Reviews

Summary

Display:

- Average Rating
- Total Reviews
- Recommendation Percentage

Graphs

Display:

- Rating Trend
- Monthly Rating Distribution
- Total Reviews per Month

Review List

Each review should display:

- Rating
- Client Review
- Date

Optional:

- Therapist Reply

7. Submit Blog

Submit Full Blog

Fields:

- Blog Title
- Featured Image
- Category
- Tags
- Rich Text Editor

Submit Blog Outline

Fields:

- Proposed Title
- Key Points
- Target Audience
- Keywords
- Notes

8. My Profile

Professional Information

Display:

- Profile Photo
- Name
- Bio
- Qualifications
- Experience
- Languages
- Specializations

Verification

Display:

- Certificates
- Verification Status

Availability

Display:

- Consultation Hours
- Working Days

Pricing

Display consultation fees.

Notification Preferences

Manage platform notifications.

9. Session Completion Workflow (Mandatory)

Purpose

Every completed consultation must have a session report before payment becomes eligible for processing.

Section 1 – Session Information

Fields:

- Session Duration
- Client Cooperation
- Client Engagement Level
- Mood Compared to Previous Session
- Progress Towards Goals
- Techniques Used
- Topics Discussed
- Risk Flags (if applicable)

Section 2 – Clinical Documentation

First Session Only

Fields:

- Presenting Problems
- Identified Concerns
- Initial Clinical Impression
- Therapy Goals
- Recommended Therapy Approach

Every Session

Fields:

- Clinical Summary
- Internal Therapist Notes

Section 3 – Homework Assignment

Fields:

- Activity
- Instructions
- Frequency
- Duration
- Number of Days
- Due Date

Examples:

- Journaling
- Breathing Exercise
- Thought Record
- Mindfulness
- Sleep Diary

Section 4 – Next Session Planning

Recommended Next Session:

- 3 Days
- 1 Week
- 2 Weeks
- 1 Month
- Custom

Reminder Timing:

- 3 Days Before
- 1 Day Before
- 2 Hours Before
- Custom

Section 5 – Follow-up Message to Client

Fields:

- Personalized Message

Attach Resources:

- PDF
- Worksheet
- Video
- Audio
- Article
- External Link

Delivery Channels:

- Email
- WhatsApp (if enabled)
- In-app Notification

Important: Therapists must never have direct access to clients' email addresses or phone numbers. All communication should be routed securely through the Hexpertify platform.

Section 6 – Session Submission

Use a **Swipe to Complete** interaction (or an equivalent accessible confirmation).

10. Settings

Display:

- Account Settings
- Password & Security
- Two-Factor Authentication
- Notification Preferences
- Privacy Settings
- Connected Devices

Design Guidelines

Visual Style

- Primary Colors : #532bce and #ffffff
- Modern and Minimal
- Healthcare-focused Aesthetic
- Calm Neutral Color Palette
- Clear Information Hierarchy
- High Readability
- WCAG Accessibility
- Responsive for Desktop, Tablet, and Mobile

UX Principles

- Frequently used actions should require minimal clicks.
- Surface actionable information instead of overwhelming users.
- Charts should be simple, interactive, and easy to interpret.
- Client progress should be understandable at a glance.
- Session documentation should be fast while capturing clinically relevant information.
- Handle all sensitive client information securely and privately.

Expected Deliverables

- User Flow Diagrams
- Information Architecture
- Low-Fidelity Wireframes
- High-Fidelity UI Designs
- Interactive Prototype
- Responsive Designs (Desktop, Tablet, Mobile)
- Design System (Colors, Typography, Components, Spacing, Icons)
- Developer Handoff Files (Figma with Components and Specifications)
